

**TOWN OF BURLINGTON
6011 ST. HWY 51
BURLINGTON FLATS, NY 13315
607-965-8649**

Munson Road, located in the Town of Burlington has a bridge that has been “red flagged” for several years. We have been bandaging it for many years, but it has reached a point that we can no longer band aid it. The bridge will be closed permanently at the end of June until such time as the town can get funding to replace it.

The Town has tried to keep it open, but we can not satisfy the DOT without spending a lot of money each year, which this year would have cost between 12,000.00 – 13,000.00. Therefore, we are forced to close it. A new bridge will cost approximately 300,000.00, which the town can not afford.

We have tired for Bridge NY grants several times with no luck. With a tight town budget we can not put much into the bridge fund every year as our main priority are the up keeping of the roads both in the summer and the winter which eats up the towns money.

The town is looking for any assistance or guidance in this matter so that this bridge doesn't remain permanently closed.

We are sorry for the hardship this may cause and will continue to keep all parties informed.

Thank you for your time.

Sincerely,

Deborah Wengert -Covert
